Established since April 2016, Securcare provides a nationwide transport service that specialises in the transportation of children, young people, and adults within the Social Health and Welfare environment.

We also offer a Non-Emergency Patient Transport Service. Transporting individuals to and from hospital for appointments, operations and physiotherapy.

We work on behalf of the Home Office and a number of Local Authorities both Health and Social Services departments including Emergency Duty teams (EDT), Youth Offending teams, Community Mental Health Teams, Hospital and Residential services across the UK.

As a company we provide a professional and caring service to all users, whilst maintaining a personal approach.

Our services can be tailored to meet the needs of the user or service as required. Our fleet and crew are available 24/7 365 days of the year and our On-call team will look to assist you as quickly as possible.

Our Vehicles are specifically designed to maximise the security and comfort of the individual we are transporting. Our Non-Emergency Transport vehicles are purpose built to accommodate the mobility and access requirements of the patients being transported. This has been carried out in conjunction with physio therapists.

All staff are experienced in transporting a diverse range of individuals from the extremely challenging through to the elderly with mobility issues. All staff carry out extensive training to ensure the highest quality of care is given and are vetted through the enhanced DBS service

Our services are available 24/7 365 Days a year and we pride ourselves on our rapid response time with a team being on the road within the hour !

Our services include but are not limited to the following;

Transfers to and from secure settings
